SUBJECT: 2004 Medicare Participation Enrollment Extension & Physician Fee Schedule Increase

Dear Provider:

Attached is the 2004 Participation Enrollment/Fee Schedule information. As a result of the recently approved Medicare Prescription Drug, Improvement and Modernization Act, please make note of the following information:

- The 2004 Participation Enrollment Period has been extended from December 31, 2003 to February 17, 2004. (Note: A participating provider within the Medicare Program receives 5% more on reimbursement for physician related services.)
- Medicare reimbursements to physicians will increase an average of 1.5% over 2003 payment rates.
- Any change in the participation status made during this period will be effective January 1, 2004. Providers who submit their 2004 participation (CMS-460) election or withdrawal after December 31, 2003, must begin to bill in accordance with their participation decision once it is submitted to the carrier.

2004 FACT SHEET

FOR PHYSICIANS, PRACTITIONERS AND SUPPLIERS: NEWS FROM MEDICARE FOR 2004

Billing and business staff: Please share this with physicians and other providers.

1. **The Centers for Medicare & Medicaid Services (CMS) is trying to make your life easier**

CMS has two initiatives focusing exclusively on Physician and Provider/Supplier issues concerning the Medicare Program. The Open Door initiative conducts monthly conference calls open to everyone in which providers discuss their issues with senior Medicare officials, questions are answered and problems are addressed in real time. More information is available at <http://www.cms.hhs.gov/opendoor/>. The Physicians Regulatory Issues Team (PRIT) is another initiative with a single task, to address the regulatory burden which providers may confront in dealing with Medicare. More information is available at <http://www.cms.hhs.gov/physicians/prit/>.

2. **Good News: Increase in Administration Rate Allowances and Payment for Influenza and Pneumococcal Vaccines**

CMS increased the Medicare reimbursement rate for the administration of influenza and pneumococcal vaccine from a national average of \$3.98 to a national average of \$7.72 effective March 1, 2003 through December 31, 2003—a 94 percent increase. CMS also increased Medicare payment amounts for the vaccines. Influenza vaccine reimbursement increased from \$8.02 to \$9.95—a 32 percent increase. Pneumococcal vaccine reimbursement increased from \$13.10 to \$18.62—a 42 percent increase. The new vaccine reimbursement amount for influenza was effective September 1, 2003. The new vaccine reimbursement amount for pneumococcal was effective October 1, 2003. The Centers for Disease Control and Prevention (CDC) reports that no influenza vaccine shortages or delays are expected. Manufacturers report that production of the 2003-04 influenza vaccine is proceeding satisfactorily and that distribution is expected to occur on or ahead of schedule. CMS urges you to place your vaccine orders as soon as possible to ensure timely receipt.

3. **Now Is The Time To Become HIPAA-Compliant**

The deadline for compliance with the electronic transaction and code set standards of the Health Insurance Portability and Accountability Act (HIPAA) was October 16, 2003. If you are not ready to bill Medicare using the appropriate HIPAA formats, you should be documenting your progress toward achieving that goal.

The Department of Health and Human Services has determined that HIPAA covered entities may implement contingencies to maintain operations and cash flow. CMS developed a contingency plan for Medicare fee-for-service operations. Under the contingency plan, Medicare will accept HIPAA compliant transactions and continue to accept and send transactions in legacy formats while our trading partners work through issues related to implementing the HIPAA standards. However, this contingency will not be in place forever. Providers must be making a good faith effort to become compliant and be documenting their progress.

CMS is eager to help you through this transition, with free educational materials and testing. Testing with CMS is the best way to assure that you and your business partners can send and receive compliant HIPAA transactions. Medicare contractors are ready and willing to test now! To schedule testing, contact your Medicare carrier or fiscal intermediary. For more HIPAA information, go to <http://www.cms.hhs.gov/hipaa/hipaa2/> Web site.

4. **CMS Announces New Restructured Manual System**

Beginning October 1, 2003, CMS will transition from a paper-based manual system to a Web-based system. The process includes the streamlining, updating, and consolidating of CMS' various program instructions into an electronic Web-based manual system for all users. However, provision will be made for those users to

receive paper copies if they don't have access to the Internet. The new system is called the on-line CMS Manual System and is located at <http://www.cms.hhs.gov/manuals/>.

The new on-line CMS Manual System will be organized by functional area, (e.g., eligibility, entitlement, claims processing, benefit policy, program integrity). The functional orientation of the new manual will eliminate significant redundancy within the manuals, streamline the updating process, and make information available sooner.

5. Medicare and You 2004

The national edition of Medicare and You 2004 will be available for order after October 1, 2003. Call 1-800-MEDICARE (1-800-633-4227) to request up to 25 copies, or fax an order to 410-786-1905 for more than 25 copies.

6. Medicare Physician Web Site

A Web page designed to meet the Medicare information needs of physicians is available on the CMS Web site at <http://cms.hhs.gov/physicians/>. The page includes links to general information on enrollment, billing, conditions of participation, publications, education, training, data, and statistics. A special feature link on the page is the Medicare Physician Fee Schedule Look-up, an application that allows the user to look up physician service information regarding fee schedule amounts and geographic practice cost indices for every carrier and locality. The Web page also includes links to specific information on the Practicing Physicians Advisory Council (PPAC), the PRIT, Medicare payments, and the participating physician directory. CMS continues to work on improving the Web page to make it as comprehensive and easy to navigate as possible. CMS welcomes feedback on information to include and other suggestions for improvement.

7. Relevant Medicare Patient Brochures That May Be Of Interest To Physicians

There are a variety of brochures that physicians might find helpful to address frequently asked coverage-related questions. These include: Medicare and Your Mental Health Benefits (Publication #10184), Women with Medicare: Visiting Your Doctor for a Pap Test, Pelvic Exam, and Clinical Breast Exam (Publication #02248), Medicare Preventive Services: To Help Keep You

Healthy (Publication #10110), Medicare Coverage of Diabetes Supplies and Services (Publication #11022), and Choosing Long-Term Care: A Guide for People with Medicare (Publication #02223). A complete listing of all beneficiary publications is available at <http://www.medicare.gov/>. Many publications are available in different languages and formats including: Braille, Spanish, Audiocassette, and Large Print. To order copies for your office, fax your request to (410) 786-1905, and include the name of a contact person, phone number, and mailing address (no P.O. Boxes please).

8. Medicare Learning Network Web Site

The Medicare Learning Network Web site, which is located at <http://www.cms.hhs.gov/medlearn/>, is the Internet gateway to all of the provider educational information, products and services that are created by CMS and its contractors. This Web site allows Medicare providers to quickly obtain information they need to successfully navigate the Medicare program. It provides: audience-specific Web pages, Web-based training modules, videos, publications, training materials, provider education events with on-line registration, questions and answers, and links to Medicare contractors. Bookmark and visit the Medicare Learning Network Web site frequently as it is continually updated to bring you the most accurate and up-to-date information possible.

9. Medicare Coverage Information

In 2002, CMS launched the Medicare Coverage Database, which includes the Local Medical Review Policies (LMRPs) and the National Coverage Determinations (NCDs) on the <http://www.cms.hhs.gov/> Web site. With the addition of a refined, global search capability that was recently added, this database allows users to search across NCDs, LMRPs, and contractor articles/FAQs from a single point of entry. The database can be accessed by going to <http://www.cms.hhs.gov/mcd/search.asp>.

10. Advance Beneficiary Notices (ABNs)

The new ABN standard form, CMS-R-131, has been published and must be used on and after January 1, 2003. For replicable ABN forms and information on how to properly use an ABN, please see our ABN Quick Reference Guide located on our Medlearn Web site at <http://cms.hhs.gov/medlearn/refabn.asp>.

11. CMS Publishes Nursing Home Quality Measures

New quality data enables beneficiaries, their caregivers, and families to choose nursing homes based, in part, on information relevant to both long (chronic) and short stays (typically Medicare-covered). The measures represent the best available science and include a risk adjustment methodology. This quality data is one source of information for consumers to use in choosing a nursing home. We encourage consumers to review the other data on the nursing home site, and to visit nursing homes in person before selection. Additionally, Quality Improvement Organizations in each state are assisting nursing homes to use the data to implement quality improvement strategies. View this information at Nursing Home Compare at <http://www.medicare.gov> Web site.

12. CMS Publishes Home Health Quality Measures

CMS launched Home Health Compare on its beneficiary Web site, <http://www.medicare.gov/>, in May 2003. Home Health Compare contains detailed information about Medicare-certified home health agencies that were certified as of January 2003. Specific information includes the name, address and phone number of the agency; Medicare-covered services offered by the agency; the agency's initial date of Medicare certification; and type of ownership. In addition, home health quality measures are currently available for home health agencies in Florida, Massachusetts, Missouri, New Mexico, Oregon, South Carolina, West Virginia and Wisconsin. Measures will be available nationwide in late Fall 2003.

13. Electronic Funds Transfer

As part of the CMS' efforts to improve service to you that includes safeguarding and expediting your Medicare payments, we encourage you to take advantage of our electronic funds transfer. You may do so by contacting your Medicare contractor for more details.

Physician Fee Schedule Information

Revisions to the 2004 Medicare Physician Fee Schedule affect the amount you will receive when providing services to a Medicare beneficiary. Below is a summary of some of the major changes effective January 1, 2004. Full physician fee schedule payment information is attached.

14. Definition of Diabetes for the Diabetes Self-Management Training Benefit

At the time CMS published the final rule about the Diabetes Self-Management Training benefit, CMS did not have a definition of diabetes that had been widely accepted. Therefore, CMS established a set of medical conditions to determine who would be eligible to receive the benefit. Since that time, CMS published a definition of diabetes to be used with the Medical Nutrition Therapy (MNT) benefit. The current physician fee schedule regulatory change for Diabetes Self-Management Training uses the definition from the MNT regulation and makes any beneficiary diagnosed with diabetes (Type 1, Type 2 or gestational diabetes using a criteria of a fasting glucose tolerance test greater than or equal to 126 mg/dL) eligible to receive the benefit if other coverage conditions are met. Beneficiaries are no longer required to meet the medical conditions criteria published in the original regulation.

15. Screening Colonoscopy

Effective January 1, 2004, Medicare will make payment for an incomplete screening colonoscopy, HCPCS code G0105 with CPT modifier "53" and HCPCS code G0121 with CPT modifier "53", at the same rate as an incomplete diagnostic colonoscopy (HCPCS code/CPT modifier 45378-53). The Medicare carrier(s) will no longer manually price the professional payment for an incomplete screening colonoscopy.

MEDICARE FEE SCHEDULE INFORMATION FOR FEE SCREEN YEAR 2004

CLINICAL PSYCHOLOGIST and CLINICAL SOCIAL WORKERS

Reimbursements for ALL Clinical Psychologist (CP – specialty 68) services are based on the current year's physician fee schedule payments. For the Clinical Social Worker (CSW – specialty 80) services reimbursement amounts remain, as set by law, at 75% of the Clinical Psychologist reimbursement level.

FACILITY SETTING PAYMENT DIFFERENTIAL

As part of the resource-based practice expense initiative, the Centers for Medicare & Medicaid Services (CMS) is replacing the previous policy that systematically reduced the practice expense relative value units (RVUs) by 50 percent for certain procedures performed in facilities with a policy that would generally identify two different levels (facility and nonfacility) of practice expense RVUs for each procedure code depending on the location of the service.

Some services, by the nature of their codes, are performed only in certain settings and will have only one level of practice expense RVU per code. Many of these are evaluation and management codes with code descriptions specific as to the location of the service. Other services, such as most major surgical services with a 90-day global period, are performed entirely or almost entirely in the hospital, and those services generally are provided with a practice expense RVU only for the out-of office or facility setting.

The higher nonfacility practice expense RVUs are generally used to calculate payments for services performed in a physician's office and for services furnished to a patient in the patient's home, or facility or institution other than a hospital, skilled nursing facility (SNF), or ambulatory surgical center (ASC). For these services, the physician typically bears the cost of resources, such as labor, medical supplies and medical equipment associated with the physician's service.

The lower facility practice expense RVUs generally are used to calculate payments for physicians' services furnished to hospital, SNF and ASC patients. The cost for nonphysicians' services and other items, including medical equipment and supplies, are typically borne by the hospital, SNF, or the ASC.

The facility-based fees are linked to their own separate RVUs independent of the nonfacility fee RVUs. This differs from the former site-of service fee reductions, which were based simply on a percentage reduction of the full fee rather than a separate RVU.

2004 NON-PHYSICIAN PRACTITIONER FEE SCHEDULE

Sections 4511 and 4512 of the Balanced Budget Act of 1997 (BBA) provide that payment for the professional services of these non-physician practitioners will be linked to the physician fee schedule.

Payment may be made for services furnished by nurse practitioners (NPs), physician assistants (PAs), and clinical nurse specialists (CNS) in all settings permitted by State law, but only if no facility or other provider charges are paid in connection with the service. Payment would be equal to 80 percent of the lesser of the actual charge or 85 percent of the physician fee schedule. Payment for a PA's services may only be made to the PA's employer. Under certain circumstances, a PA as an independent contractor qualifies as an employment relationship where payment is made to the employer.
